

TABLE OF CONTENTS

PLENARY SESSION 1: INTERNATIONAL EXPERIENCE AND PROGRAMS

CANDU Advanced Fuel R&D Programs for 1997-2006 in Korea H.C. Suk, M.S. Yang, K.S. Sim and K.J. Yoo (KAERI, Korea)	1
Romanian Nuclear Fuel Program: Past, Present and Future O. Budan, I. Rotaru (RENEL-GEN, Romania) and C.A. Galeriu (RENEL-FCN, Romania).....	11
Nuclear Fuel Supply View in Argentina R.O. Cirimello (CNEA, Argentina)	23

LUNCHEON PRESENTATIONS:

Development of the CANDU Reactor A.S. Bain (AECL-Retired).....	32
Early Days of CANDU Fuel R.D. Page (AECL-Retired)	43

SESSION 2A: CANFLEX® FUEL BUNDLE DESIGN

Design Verification of the CANFLEX Fuel Bundle - Quality Assurance Requirements for Mechanical Flow Testing P. Alavi, I.E. Oldaker (AECL, Canada), C.H. Chung and H.C. Suk (KAERI, Korea)	52
Performance of the CANFLEX Fuel Bundle under Mechanical Flow Testing C.H. Chung, S.K. Chang, H.C. Suk (KAERI, Korea), I.E. Oldaker and P. Alavi (AECL, Canada)	60
Thermalhydraulic Performance of CANFLEX Fuel G.R. Dimmick, D.E. Bullock, A. Hameed (AECL, Canada) and J.H. Park (KAERI, KOREA)	70

Handwritten characters, possibly a vertical list or index, located on the right edge of the page.

Explicit Core-Follow Simulations for a CANDU 6 Reactor Fuelled with Recovered-Uranium CANFLEX Bundles M.J. D'Antonio and J.V. Donnelly (AECL, Canada).....	82
--	----

SESSION 2B: FUEL DESIGN & DEVELOPMENT
--

R&D Activities on CANDU-Type Fuel in Indonesia A. Suropto, M. Badruzzaman, and A. Latief (BATAN, Indonesia)	91
Recent Activities of the Nuclear Fuel Technology S. Can, M.T. Aybers, B. Kopuz, Y. Bayram, L. Gureli, F. Can, A. Yayli, L. Colak, K. Cimcim, I. Yurtseven, S. Acarkan, N. Bekdemir, I. Yildiz and S. Albayrak (Cekmece Nuclear Research and Training Center, Turkey)	100
Impact of Reactor Water Chemistry on Cladding Performance B. Cox (University of Toronto, Canada)	108

SESSION 3A: FUEL MODEL DEVELOPMENT - PART I
--

Simulation of the Transport of Volatile Fission Products within the Fuel-to-Sheath Gap of Defective CANDU Reactor Fuel Rods H.W. Bonin and B.J. Lewis (RMC, Canada).....	118
Modelling the Release of Volatile Fission Product Cesium from CANDU Fuel Under Severe Accident Conditions Using Artificial Neural Networks W.S. Andrews, B.J. Lewis (RMC, Canada) and D.S. Cox (AECL, Canada).....	133
Vaporization of Low-Volatile Fission Products Under Severe CANDU Reactor Accident Conditions B.J. Lewis, B.J. Corse, W.T. Thompson, M.H. Kaye (RMC, Canada), F.C. Iglesias (OH, Canada), P. Elder (AECB, Canada), R. Dickson and Z. Liu (AECL, Canada) ..	145

SESSION 3B: MANUFACTURING AND QUALITY ASSURANCE
--

Quality Evaluation of the Nuclear Fuel Manufactured in Romania before 1990 O. Budan (RENEL-GEN, Romania), C.A. Galeriu, A. Pascu, A. Bailescu and G. Andrei (RENEL-FCN, Romania)	160
--	-----

Nuclear Fuel Fabrication - Developing Indigenous Capability
U.C. Gupta, R.N. Jayaraj, R. Meena, V.S. Sastry, C. Radhakrishna, S.M. Rao and K.K. Sinha (NFC, India)..... 170

Quality Surveillance Experience of PHWR Fuel
P.G. Kulkarni, A.K. Bandyopadhyay and B.K. Shah (Bhabha Atomic Research Centre, India)..... 181

Ceramic UO₂ Powder Production at CAMECO Corporation
A.K. Kwong and S.M. Kuchurean (CAMECO, Canada) 188

Six-Sigma Quality for Fuel Manufacturing
M. Gabbani (GEC, Canada)..... 198

SESSION 4A: FUEL PERFORMANCE

Technical Specifications and Performance of CANDU Fuel
R. Sejnoha (AECL, Canada)..... 211

Fuel Defect Root Cause Investigation at Wolsong-1
H.T. Park, H.S. Jun (KEPCO, Korea), A.M. Manzer, S.J. Palleck and J.W. Love (AECL, Canada) 219

SESSION 4B: FUEL SAFETY

The Effect of Element Bow on Dryout Power and PDO Heat Transfer in CANDU Fuel Bundles
S.C. Sutradhar and J.R. Schenk (AECL, Canada) 229

Preliminary Results of the BTF-105A Test: An In-Reactor Instrument Development and Fuel Behaviour Test
J.W. DeVaal, J.D. Irish, L.W. Dickson, S.T. Craig, M.G. Jonckheere and L.R. Bourque (AECL, Canada) 239

Large-Break LOCA Assessment for the Highly Advanced Core Design
F.J. Doria, V.I. Nath, K.F. Hau, R.F. Dam and J. Vecchiarelli (AECL, Canada) 252

SESSION 5A: ADVANCED FUEL CYCLES

The Utilization of Russian Weapons Plutonium in Canadian CANDU Reactors: A Feasibility Study

J.I. Saroudis, R.D. Gadsby (AECL, Canada), E.G. Kudriavtsev, E.I. Tyurin, L.Petrova (MINATOM, Russian Federation), A.I. Tokarenko (VNIPIET, Russian Federation), , L.R. Jones (ZPI, Canada) and E.G. Bazeley (OH, Canada).....267

Quantitative WDS Analysis to Determine Pu Homogeneity in CANDU MOX Fuel

Z. He, D. Rose, F. Szostak, F.C. Dimayuga and M.H. Schankula (AECL, Canada) ..279

Fabrication of Simulated Mid-Burnup CANDU Fuel in the RFFL

F.C. Dimayuga (AECL, Canada).....289

AECL's Progress in DUPIC Fuel Development

J.D. Sullivan, M.A. Ryz (AECL, Canada) and J.W. Lee (KAERI, Canada).....300

SESSION 5B: FUEL MODEL DEVELOPMENT - PART II

Computer Simulation of the Behaviour and Performance of a CANDU Fuel Rod

A.C. Marino (CNEA, Argentina).....311

Source 2.0 Model Development: UO₂ Thermal Properties

P.J. Reid (ALARA Research), M.J.Richards (HQ, Canada) and F.C. Iglesias and A.C. Brito (OH, Canada).....321

Quantification of Factors Affecting Thermally-Induced Bow in a CANDU Fuel Element Simulator

P.M. Mathew, S. Baset, J. Veeder (AECL, Canada) and E.Kohn (OH, Canada)342

Modelling Transient Two-Dimensional Nonlinear Temperatures in Nuclear Fuel Using the Feat Code

M. Tayal (AECL, Canada), S.D. Yu (Ryerson Polytechnic University, Canada), C. Manu, R. Aboud, D. Bowslaugh and L. Flatt (AECL, Canada)351

Creep Bowing in CANDU Fuel: Modelling and Application

S.D. Yu (Ryerson Polytechnic University, Canada), M. Tayal, and Z. Xu (AECL, Canada)363

1 1

SESSION 6A: FUEL PERFORMANCE ASSESSMENT

Investigation of the CANLUB/Sheath Interface in CANDU Fuel at Extended Burnup by XPS and SEM/WDX

W.H. Hocking, R. Behnke, A.M. Duclos, A.F. Gerwing and P.K. Chan (AECL, Canada) 376

SESSION 6B: SPENT FUEL MANAGEMENT

Spent Fuel Dry Storage Experience at Gentilly 2 NGS

N.N. Macici (HQ, Canada) 393

Waste Management Issues and their Potential Impact on Technical Specifications of CANDU Fuel Materials

J.C. Tait and L.H. Johnson (AECL, Canada)..... 403

Effects of Adsorbates on Zircaloy Oxidation in Air

Y. Cho, Y.G. Kim and K. Park (Kyunghee University, Korea) 415

Quantitative Procedure to Determine the Rate of U_3O_8 Formation on UO_2

P. Taylor and R.J. McEachern (AECL, Canada) 425

TABLE OF CONTENTS

SESSION SUMMARIES..... 1

PLENARY SESSION 1: INTERNATIONAL EXPERIENCE AND PROGRAMS

Trends in Design & Manufacture of Nuclear Fuels in India

K.K. Sinha (Nuclear Fuel Complex, India) 18

Canadian Fuel Development Program in 1997/98

J.H. Lau (AECL, Canada), E. Kohn (OH, Canada), R. Sejnoha, D.S. Cox (AECL, Canada) N.N. Macici (HQ, Canada) and R.G. Steed (NBP, Canada) 29

DINNER PRESENTATION:

CANDU, Building the Future

F. Stern (Stern Laboratories, Canada) 40

SESSION 2A: CANFLEX® Fuel Bundle Design

Some Considerations in the CANFLEX-NU Fuel Design

K.S. Sim and H.C. Suk (KAERI, Korea)..... 46

SESSION 2B: FUEL DESIGN & DEVELOPMENT

The Use of Graphite in CANDU Fuel with Recovered Uranium

B.J. Min, B.G. Kim, K.S. Sim and H.C. Suk (KAERI, Korea) 62

The Effect of Microstructure and Geometry on the Fatigue Behaviour of Bundle Assembly Welds

B..A. Surette (AECL, Canada) and M. Gabbani (GEC, Canada) 72

SESSION 3A: FUEL MODEL DEVELOPMENT - PART I

Verification of the Thermal Module in the ELESIM Code and the Associated Uncertainty Analysis

V.I. Arimescu, A.F. Williams, M.E. Klein, W.R. Richmond and M. Couture (AECL, Canada)83

FACTAR 2.0 Code Validation

P.B. Middleton, R.C. Rock and S.L. Wadsworth (OH, Canada) 100

SESSION 3B: MANUFACTURING AND QUALITY ASSURANCE

The Manufacturing Role in Fuel Performance

A.P. Barr (ZPI, Canada)..... 115

SESSION 4A: FUEL PERFORMANCE

Fuel Performance in Indian PHWR

M. Ravi, P.N. Prasad, A.G. Chhatre and S.A. Bhardwaj (Nuclear Power Corporation, India) 124

Assessments of Sheath Strain and Fission Gas Release Data From 20 Years of Power Reactor Fuel Irradiations

P.L. Purdy, A.M. Manzer (AECL, Canada), R.H. Hu (HQ, Canada), R.A. Gibb (NBP, Canada) and E. Kohn (OH, Canada) 134

Fuel Condition in Canadian CANDU 6 Reactors

R.H. Hu, N.N. Macici (HQ, Canada), R.A. Gibb (NBP, Canada), P.L. Purdy and A.M. Manzer (AECL, Canada), E. Kohn (OH, Canada) 148

Quality Assurance in CANDU-Type Fuel Manufacturing

Y.K. Afifi and E. El-Hakim (Atomic Energy Authority, Egypt) 168

SESSION 4B: FUEL SAFETY

Evolution of the ELOCA Code: Mk6 to the Present

V.I. Arimescu, M.E. Klein, J.R. Gauld, Z.W. Lian and L.N. Carlucci (AECL, Canada) 178

Understanding CANDU Fuel Bowing in Dryout: An Industry Approach E. Kohn (OH, Canada), R.H. Hu (HQ, Canada), G.I. Hadaller and R.A. Fortman (Stern Laboratories, Canada).....	188
--	-----

SESSION 5A: ADVANCED FUEL CYCLES
--

The Parallex Project: CANDU MOX Fuel Testing with Weapons Derived Plutonium - D.S. Cox and F.C. Dimayuga (AECL, Canada), G.L. Copeland (Oak Ridge National Lab, USA), K. Chidester (Los Alamos National Lab, USA), S.A. Antipov and V.A. Astafiev (A.A. Bochvar All-Russia Scientific Research, Russia)	199
---	-----

Development of Inert-Matrix Materials for Pu-Burning or Actinide-Waste Annihilation R.A. Verrall, H.R. Andrews, P.S. Chan, I.M. George, P.J. Hayward, P.G. Lucuta, S. Sunder (AECL, Canada), M.D. Vlajic and V.D. Krstic.....	210
---	-----

SESSION 5B: FUEL MODEL DEVELOPMENT - PART II
--

EDF Fragment Relocation Model Based on the Displacement of Rigid Bodies C. Callu, D. Baron and J.M. Ruck, EDF Etudes et Recherches, France)	222
---	-----

SESSION 6A: FUEL PERFORMANCE ASSESSMENT

Nuclear Fuel Performance in Embalse NPP, Design Optimizations and Manufacturing Improvements L.A. Alvarez, J.A. Casario, J. Valesi and R. Olezza (CNEA, Argentina)	236
--	-----

Bundle Uranium Content and Performance of CANDU Fuel S.J. Palleck, R. Sejnoha and B.J. Wong (AECL, Canada).....	243
---	-----

Progress in Development of a Technique to Measure the Axial Thermal Diffusivity of Irradiated Reactor Fuel Pellets R. Hutcheon and J. Mouris (AECL, Canada)	256
---	-----

SESSION 6B: SPENT FUEL MANAGEMENT

All papers were published in Volume 1.
