## The 2<sup>nd</sup> Canada-China Joint Workshop on Supercritical Water-Cooled Reactors (CCSC-2010)

April 25-28, 2010

Courtyard Marriott Downtown Toronto Hotel, Toronto, Ontario, Canada

### Objective

This joint workshop is aimed at providing a forum for discussion of advancements and issues, sharing information and technology transfer, and establishing future collaborations on research and developments for supercritical water-cooled reactors (SCWR) between Canadian and Chinese research organizations.

### Participants

The joint workshop will be of interest to those involved in research and development of SCWR core design, fuel design, materials, chemistry, corrosion, thermal-hydraulics, and safety analyses at organizations in Canada and China. The official language of the Workshop is English.

### Topics of Interest

Papers related to the following topics are of interest to this joint workshop:

- Reactor Core and Fuel Designs
- Materials, Chemistry and Corrosion
- Thermalhydraulics and Safety Analysis
- Balance of Plant
- Other applications

### Abstract and Full Paper Submission

Abstracts (<100 words) and full papers must be submitted via the submission link on the Workshop Webpage of the CNS website. Papers should include sufficient information for a clear presentation of the topic. Usually this can be achieved in 8-12 pages, including figures and tables. All papers will be published in a CD to be distributed at the workshop. The required format of submission is electronic (Word). Information on paper submission and templates are available from the workshop webpage of the CNS website at <http://www.cns-snc.ca>.
