Bio for Diane Cameron

Diane Cameron is Director of the Nuclear Energy Division at Natural Resources Canada. As Director, she heads up the division responsible for leading and coordinating federal policy on nuclear energy. Ms. Cameron has ten years of experience in the Government of Canada, working on environment, energy, and trade policy—including NAFTA, US relations, and international negotiations.

Prior to government Diane spent seven years in the private sector specializing in global value chains and advising international transportation companies such as Canadian National Railway, Schneider Trucking, and Crowley Ocean Freight on logistics.

She received a Masters in Technology and Policy from M.I.T., where she was named Alfred Keil Fellow for Wiser Uses of Science and Technology. Diane also holds a Bachelor of Applied Science in Systems Design Engineering from the University of Waterloo.
