CRL

Jim Harvie is a former thermalhydraulics researcher at CRL (1966-1975) who went on to become Project Officer at the Bruce Generating Stations for the CNSC (then AECB), rising in the CNSC to Director General, Reactor Regulation. Now retired from the CNSC, he is the current president of the Canadian Nuclear Society, and his involvement with AECL, the CNSC and the CNS brings a rich perspective on interaction between the Nuclear Industry and its Regulator.
